

Dr. Khademhosseini receives the 2011 Society for Biomaterials Young Investigator Award.

Dr. Khademhosseini, Junior PI of Device/System Construction Thrust, receives the Young Investigator Award of the Society For Biomaterials (SFB). The SFB Young Investigator award is given annually to recognize an individual who has demonstrated outstanding achievement in the field of biomaterials research within ten years following his/her terminal degree. The award lecture and prize will be given at the SFB Annual meeting at Orlando, Florida, April 13-16, 2011.
