

ISHA seminar 2026 series

ISHA seminar 2026-1 [26th January 2026]

Date: 26th January, Monday, 2026

Time 20:00-22:00 (JST)
12:00-14:00 (CET)
06:00-08:00 (New York)

Free to participate

Online (Link will be sent after the registration)

Registration: Register in advance for this meeting:

<https://us02web.zoom.us/meeting/register/QZliDzLWTs-5YUfRbYUXpg#/registration>

After registering, you will receive a confirmation email with a meeting link.

Chairperson: **Dr. Saskia Schimmel**, Friedrich-Alexander-Universität Erlangen-Nürnberg (FAU), Germany

Program

- 12:00 (CET) **Dr. Tomasz Sochacki**
Institute of High Pressure Physics, Polish Academy of Sciences, Warsaw,
Poland
[“Ammonothermal Growth of GaN Crystals: From Fundamentals to the State of the Art”](#)

- 13:00 (CET) **Dr. Marek Zak**
Institute of High Pressure Physics, Polish Academy of Sciences, Warsaw,
Poland
[“Insights into Ammonothermal GaN Crystallization: Computational Modeling, Process Optimization, and Future Technology Scaling”](#)
