

Dear distinguished speakers and all the participants,

The two day international workshop, Japan-Taiwan Workshop on Electrochemistry JTWE 2019, was successfully and we could provide an great opportunity to discuss recent progress in Electrochemistry in the variety of field including material science, biomedical engineering, practical medical applications. We hope all the participants enjoyed your experience in Sendai and wishing to see you again soon.

JTWE2019 organization committee:

Akichika Kumatani

Associate Professor  
Advanced Institute for Materials Research (AIMR)  
Tohoku University

Japan-Taiwan Workshop on Electrochemistry  
JTWE 2019

14th and 15th February 2019

Advanced Institute for Materials Research,  
Graduate School of Environmental Studies  
Tohoku University  
Sendai, Japan

JTWE 2019 Organizing Committee

# Japan-Taiwan Workshop on Electrochemistry: (JTWE 2019)

Welcome to Japan-Taiwan Joint Workshop on Electrochemistry (JTWE) 2019.  
This workshop is organized for giving a great opportunity to researchers in Japan and Taiwan for discussing the multidisciplinary applications related to or inspired by 'Electrochemistry'.

JTWE2019 organization committee:

Akichika Kumatani

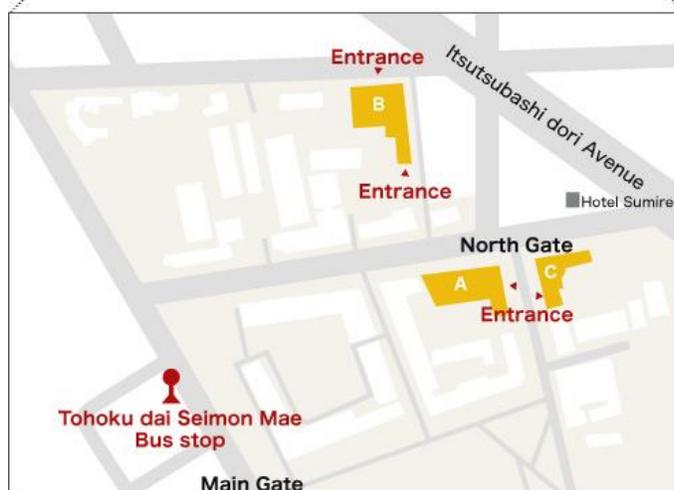

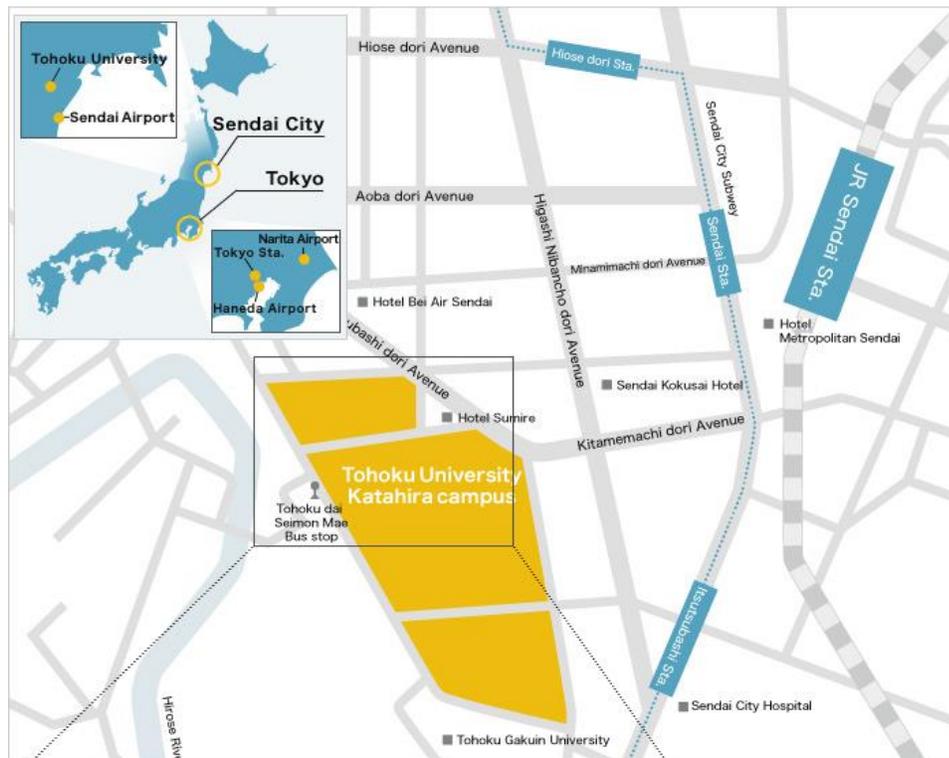

Associate Professor  
Advanced Institute for Materials Research (AIMR)  
Tohoku University

## Access:

Tohoku University  
Advanced Institute for Materials Research (AIMR)

2-1-1 Katahira, Aoba-ku, Sendai, 980-8577 Japan  
Phone: +81-22-217-5922 / FAX: +81-22-217-5129

A...AIMR Main Building  
B...AIMR Laboratory Building  
C...AIMR Annex

## **Invited Speakers:**

Hsien-Chang Chang (National Cheng Kung University)

Akichika Kumatani (Tohoku University)

Ching-Chou Wu (National Chung Hsing University)

Hiroki Ida (Tohoku University)

Gary Chang (Delta Electronics, Inc.)
