

Professor Y. Ikuhara (PI) was awarded "7th Honda Frontier Award" for 2010.

"The Honda Frontier Award" is an annual award given by the Honda Memorial Foundation to recognize and encourage epoch-making invention or discovery in the materials science and technology. In 2010, this Prize was awarded by Prof. Yuichi Ikuhara, PI of Materials Physics Thrust in WPI-AIMR, for "Atomic Resolution Characterization of Grain Boundary Superstructures and Creation of Dislocation Technology in Ceramics".
