

**Professor T. Adschiri was awarded "The Prize of the Minister of Education, Culture, Sports, Science and Technology in the field of Cooperation among Government, Industry and Academia".**

Prof. Adschiri, PI of Soft Material Thrust, was selected for his work on "Development of Super Hybrid materials" as the winner of the prize of the Minister of Education, Culture, Sports, Science and Technology in the framework of Commendation for Promotion of Cooperation among Government, Industry and Academia. The prize is to recognize and encourage excellent work carried out by individuals or organizations in cooperation among government, industry and academia.

The award presentation ceremony was held during Science and Technology Festa in Kyoto on June 5, 2010.
